Dashboard Business Insights Summary

Prepared by: Muhammed Ziyad

Date: 28 June 2026

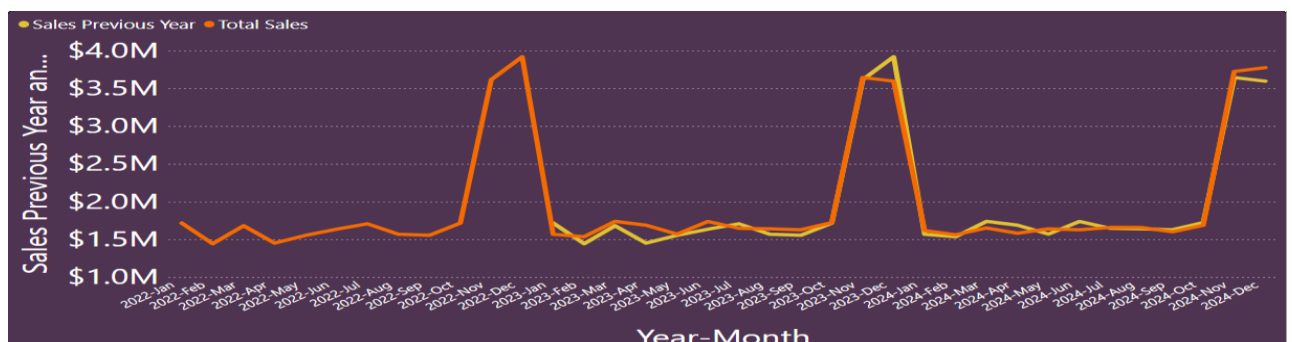

1. Most Profitable Category & Region

Key Insights

- Electronics generated the highest gross profit.
- Central region contributed the highest overall profit.
- High profitability indicates strong product demand and healthy margins.

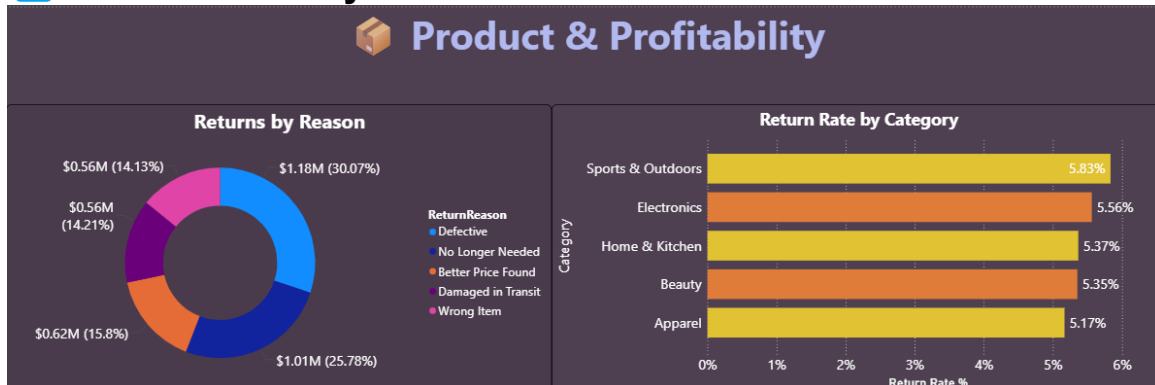

2. Year-over-Year Sales Growth & Seasonality

Key Insights

-  Sales grew steadily from 2022 to 2024.
-  Year-end months recorded the highest sales.
-  Seasonal demand suggests opportunities for targeted promotions.

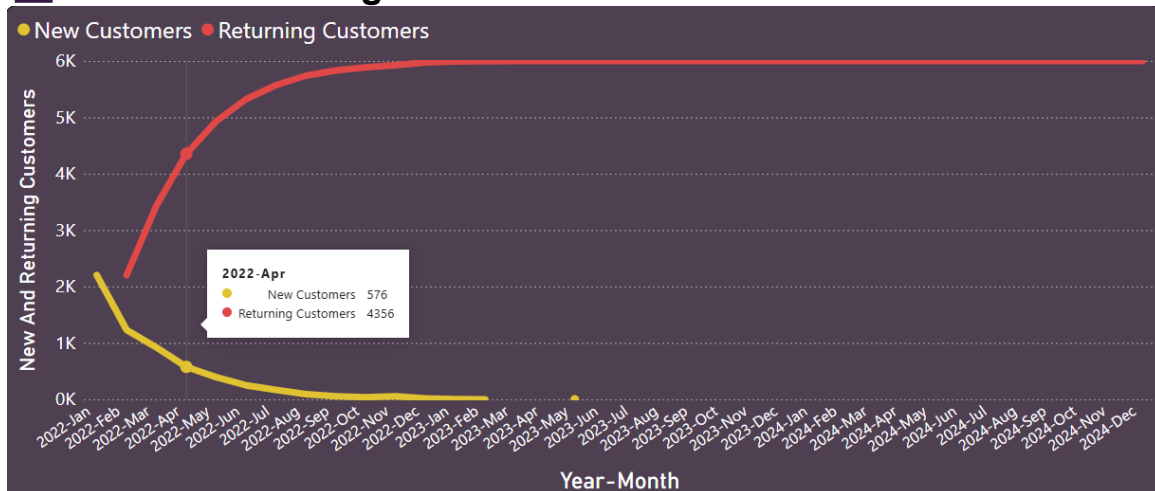

3. Returns Analysis

Key Insights

-  Defective products were the leading return reason.
-  Electronics showed one of the highest return rates.
-  Product returns reduced overall profitability.

4. Customer Insights

Key Insights

-  New vs Returning Customers are based on **First Purchase Date**.
-  This provides a more accurate customer acquisition and retention analysis than JoinDate.

Management Recommendation

-  Improve product quality to reduce defective returns.
-  Increase inventory before seasonal demand peaks.
-  Continue investing in high-profit categories.
-  Strengthen customer retention programs.
